The Mysore Journal
of
Agricultural Sciences

Vol. IX, 1975

UNIVERSITY OF
AGRICULTURAL SCIENCES
HEBBAL, BANGALORE

MYSORE JOURNAL OF AGRICULTURAL SCIENCES

Editorial Board

Editor-in-Chief

DR. K. RAMAKRISHNAN, DEAN

Members

- DR. K. A. JALIHAI, Director of Extension, I/C
DR. H. C. GOVINDU, Sr. Prof. UNDP/ICAR Project
DR. G. P. CHANNABASAVANNA, Prof. of Entomology
DR. J. V. GOUD, Prof. of Agril. Botany, Dharwar
DR. P. B. DESHPANDE, Assoc. Prof. of Agril. Chemistry
DR. K. KRISHNAMURTHY, Prof. of Crop Production
DR. P. S. B. R. JAMES, Prof. of Fishery Biology, Mangalore
DR. S. V. S. SHETTY, Prof. of Dairy Science.
DR. R. RAMANNA, Prof. of Agril. Economics.
DR. N. SUNDAR RAJ, Assoc. Prof. of Statistics.

Editor

PROF. B. V. VENKATA RAO

Secretary, Communication Council

Frequency of publication: Quarterly—January, April, July and October.

Revised Subscription rates from Volume VII

Inland	Rs. 20.00
Reg. Post Acknowledgement Due	Rs. 8.00 Extra
Foreign	\$ 10.00
	or £ 3.75
Air mail America	\$ 10.00 Extra
Air mail others	£ 3.75 Extra

SUBJECT INDEX

- A Comparative Study of the Food of Juveniles of the Pearlscale *Ectophasia suratensis* (Bloch) Collected from Estuarine and Freshwaters, 479-486.
- Additive Effect of Fertilizer Applications on Rainfed Finger Millet, 21-28.
- An Analysis of Causes Associated with the Non-utilization of High Level Canal Irrigation from Tungabhadra Project, 663-670.
- A Sample Survey on the Performance of High Yielding and Local Paddy Varieties in Relation to the Agronomic Practices at Mangalore, 379-394.
- A Study of Knowledge of Hybrid Maize Cultivation by Trained and Untrained Farmers, 337-342.
- A Study of the Extent of Adoption of Selected Recommended Practices of Hybrid Jowar in Dharwar District, 157-166.
- A Study on the Interrelationship Between Root Cation Exchange Capacity, Cation Ratios and Nutrient Uptake, 282-289.
- A Study on the Preparation and Preservation of Fish Balls, 150-157.
- A Study on the Contribution of Training in Poultry Farming, 167-175.
- A Study on the Time Utilization of Gramasevaks on Different Activities, 342-347.
- A Survey on the Effect of Agronomic Practices on the Yield of Hybrid Sorghum Under Rainfed Conditions in Dharwar District, 329-337.
- Bionomics of Sweet Potato Weevil *Cylas formicarius* (Fabricius) (Coleoptera: Curculionidae), 99-109.
- Characteristics of Dairy Farmers in Bangalore Milk-Shed Area, 493-499.
- Characteristics of Farmers in Relation to Sources of Information, 176-181.
- Chemical Control of the Potato Tuber Worm, *Gnorimoschema operculella* Z.-l. (Lepidoptera: Gelechiidae) in Karnataka, 415-417.
- Chemical Transformations in Three Varieties of Banana (*Musa paradisiaca* Linn.) Fruits Stored at 20°C, 634-644.
- Communication Sources of High Yielding Variety Growers, 702-710.
- Complex Fertilizers for Rainfed CSH-1 Sorghum, 592-596.

- Comparative Growth and Yield of Sorghum Hybrid and its Parents, 596-601.
- Comparative Studies on the Dilution Rate, Method of Application and Breed Susceptibility to "Sumithion" as an Ectoparasiticide in Dogs, 688-691.
- Comparative Studies on the Physiology of Leaf, Neck and Earhead Isolates of *Helminthosporium sativum* Pam., Kirg and Bakke Parasitic on Wheat Crop in Karnataka, 421-426.
- Comparison of Different Methods of Lime Requirement in Acid Soils of Karnataka. I. Correlation Studies, 250-297.
- Cost and Economics of Cultivation of High Yielding and Locally Improved Varieties of Paddy in the Coastal Belt of Karnataka, 40-48.
- Critical Stages of Weed Competition in Ragi Under Rainfed Conditions, 582-585.
- Direct, Residual and Combined Effects of Various Slow Release Nitrogenous Fertilizers in Rice-Rice Rotation, 523-529.
- Earliness in Cotton. I. A Study of Component Characters, 219-229.
- Effect of Black Polythylene Mulch on the Growth, Earliness and Yield of Cauliflower (*Brassica oleracea* var. *botrytis*), 400-407.
- Effect of Copper-Sulphate Feeding on Prothrombin Time in Chicks, 129-132.
- Effects of Girdling and Auxin Treatment (IPA) on Rooting of Cuttings of Waterapple (*Syzygium javanica* L.), 122-128.
- Effect of Nitrogen and Phosphorus Rates and Spacings on the Seed Yield and Yield Attributing (*Helianthus annuus* L.), 660-663.
- Effect of Planting Dates on the Performance of Certain *japonica* and *indica* Cultivars, 6-14.
- Effect of Planting Methods on Yield and Yield Components of Soybean (*Glycine max.* L.), 576-582.
- Effect of Soil Fungi on Nodulation and Nitrogen Fixation in *Pisum sativum*, 81-86.
- Effect of Various Forms and Levels of Phosphate on Root Development and Nodulation of Berseem, 49-53.
- Evaluation of Suitable Extractants for Determining Zinc in Medium Black Soils of Madhya Pradesh, 609-614.
- Fertilizer Response of High Yielding and Local Paddy Varieties During Summer in Shimoga District, 529-542.

- Fodder Yielding Ability of Maize (*Zea mays* L.) Genotypes Under Varying Levels of Nitrogen and Population. I. Green Fodder Yield, 53-59.
- Further Studies on Chemical Weed Control in Lowland Rice, 585-591.
- Further Studies on Response of Paddy to Fertilizers in Shimoga District, 14-21.
- Genetic Variability in Horsegram (*Macrotylma uniflorum* syn. *Dolichos biflorus*), 361-363.
- Growth and Yield of Grain Sorghum Under Low Light Intensities, 655-659.
- Has Thiamine Propyl Disulphide any Influence on Hepatic Microsomal Enzyme Activity in Rats? 136-141.
- Heritability of Agronomic Traits in Soybean [*Glycine max* (L.) Merrill], 651-659.
- Heterosis and Heterobeltiosis in Sorghum *Sorghum bicolor* (L.) Moench., 229-236.
- Heterosis in Relation to Heterozygosity in Sorghum, 67-71.
- Impact of Moisture Stress on the Structure of Yield in Maize (*Zea mays* L.). I. Effect on Grain Yield and its Components, 1-6.
- Incidence of Pebrine Disease During Different Rearing Seasons of *Bombyx mori* Linnaeus in Mysore, 313-317.
- Influence of Soil Moisture Regimes and Soil Fertility Levels on Water Use by Summer Fodder Maize, 408-414.
- Influence of Soil Water Potential on Radicle Elongation of Wheat and Mung Grown in a Clayey Soil, 627-634.
- Inheritance of Flour Protein Content in a Wheat Cross Between C 273 $\times$ S 308, 395-399.
- Insect Pests of Maize in Karnataka, 110-121.
- Instrumentation Techniques for Evaluation of a Batch Type Drier, 454-466.
- Investigations on the Level and Method of Placement of Fertilizers to Cotton (*G. hirsutum*) in Transition Tract of Karnataka, 29-34.
- In vitro* Evaluation of Fungicides against Three Isolates of *Helminthosporium sativum* Pam., King and Bakke on Wheat in Karnataka State, 95-98.
- Karyomorphological Studies in Castor (*Ricinus communis* L.), 72-80.

- Least Cost Combination of Fertilizers—An Application of Linear Programming Technique, 486-493.
- Mouth Parts of Mallophaga, 670-688.
- Occurrence of Ketosis in Cows with Anorexic Symptoms and its Relationship to Blood Glucose Level, 692-696.
- Optimal Time of Harvest for Rice Varieties for Higher Grain Yield and Head Rice Recovery, 215-218.
- Paraquat Retention by Soils, 276-282.
- Path Analysis of Pod-Yield Components in Snap Bean (*Phaseolus vulgaris* L.), 649-651.
- Pathogenicity and Control of Root-Knot Nematodes (*Meloidogyne* spp.) Infecting Chick Pea, 434-439.
- Pattern of Dry Matter Accumulation and Distribution in Finger Millet Genotypes in Relation to Levels of Spacing and Nitrogen, 372-378.
- Performance of Malting and Grain Type Barley Varieties under Bangalore Conditions, 602-608.
- Phenotypic and Genotypic Variability in an Exotic $\times$ Indian and Indian $\times$ Indian, Inter-varietal Crosses of Wheat (*Triticum aestivum* L.), 364-372.
- Place and Environment Effect on Seed Weight and Oil Content of Cotton Seed, 34-39.
- Plant Protection Practices and Problems of Vegetable Growers in Bangalore District, 499-509.
- Preliminary Studies on Pollen Germination in Cardamom, 59-66.
- Rainfall Erosion Index of Bangalore Agro-Climatic Area, 448-453.
- Reaction of Sweet Potato Varieties to the Damage of the Weevil, *Cylas formicarius* (Fab.) (Coleoptera: Curculionidae) and on the Possibility of Picking up of Infestation by Weevil, 418-421.
- Relative Efficiencies of Different Kinds of Nitrogenous Fertilizers and Time of Application on Paddy in Black and Laterite Soils of Karnataka, 542-555.
- Relative Efficiency of Phosphatic Fertilizers on Acid Soils, 191-196.
- Response of Irrigated Bajra to Fertilizers in Raichur District, 556-565.
- Response of Irrigated Wheat to Fertilizer and its Economics in Raichur District, 268-275.
- Response of Paddy Varieties to Fertilizer and its Economics in Raichur District, 245-258.

- Role Expectations/Performance Instrument for Teachers of Agricultural Universities (A Scale), 697-701.
- Some Observations on the Biology of Fresh Water Snail, *Indoplanorbis exustus* (Deshayes), 466-473.
- Study of Variability and Character Association Analysis in Linseed (*Linum usitatissimum* L.), 236-245.
- Studies on Canine Haemoglobin: Peptide Maps of Alpha and Beta Chains, 317-319.
- Studies on Chemical Weed Control in Groundnut (*Arachis hypogaea* L.), 439-448.
- Studies on Market Diseases of Vegetables in Karnataka State—II, 427-433.
- Studies on the Chemical Control of the Sweet Potato Weevil, *Cylas formicarius* (Fabricius) Oliver (Coleoptera: Curculionidae), 307-313.
- Studies on the Control of Pack-weight by Blanching in the Canning of Prawns, 319-329.
- Studies on the Decomposition of Organic Residues in a Black Clay Loam Soil of Karnataka, 298-307.
- Studies on the Pathogenicity of Three Isolates of *Helminthosporium sativum* Pam., King and Bakke on Wheat at its Different Stages of Growth in Karnataka State, 87-94.
- Studies with Slow Release Nitrogenous Fertilizers on Paddy and Sorghum, 258-267.
- The Hypoglycemic Effect of *Murraya koenigii* (Spreng) in Normal and Alloxan Diabetic Dogs, 132-136.
- The Trimester System: A Quantitative Study with Reference to the University of Agricultural Sciences, Bangalore, 182-191.
- Tubal Insufflation of Excised Bovine Genitalia, 145-150.
- Unusual Occurrence of *Grammocephalus hybridatus* Westhuysen, 1938 in Verminous Nodule in the Stomach of an Indian Elephant (*Elephas indicus*), 141-145.
- Uptake of Nutrient Elements in Certain Crops as Influenced by Root Cation Exchange Capacity, 615-626.
- Yield Potential of Niger (*Guizotia abyssinica* Cass.), 644-648.
-
